Painless Dentistry
9 a. m. to 8 p. m. Daily
10 a. m. to 1 p. m. Sundays

**The Little
Cavity**
may be the "little acorn" from
which the "big oak" of trouble
grows. It's a saving of the tooth
to give immediate attention to "the
little cavities." Painless filling
isn't a theory with us, it's an
every-day experience with our
patients. Remember our skillful
work "stands the test of time."

Stands the Test of Time

City of Norwich Water Works
Office of
Board of Water Commissioners,
Norwich, Conn., April 1, 1915.
Water rates for the quarter ending
March 31, 1915, are due and payable
the first day of April, 1915. Office open
from 9 a. m. to 5 p. m.
Additions will be made to all bills
remaining unpaid April 30.
JOSEPH J. SHAW, Cashier.

OPTOMETRY
Through eye-strain thousands
are wasting nervous energy
equivalent to that consumed at
hard labor. Such sufferers can-
not understand why they should
need glasses so long as they
"see so well."
Those who see best are most
likely to suffer from strain—be-
cause if their optical defect is
so great that the eyes give up
trying and the case becomes one
of poor sight.
The ordinary test by letters is
useful for determining sharpness
of vision, but is as absurd as a test
for eye-strain.
Scientific measurement of the
eyes by a skilled optometrist
—a surveyor of light, if you
please—and the correct ad-
aptation of glasses, is the only safe,
sound and logical means of re-
lieving eye-strain.

GREENEVILLE
Hemorrhage Caused Death of George
T. Kilroy—Funeral of Miss Grace E.
Carpenter—District Happenings.
At his home, 16 Roath street, Tues-
day afternoon, George T. Kilroy, 52
years of age, died of a hemorrhage
from the rectum. He had been ill for
some time, and was taken to the hos-
pital on Monday night. He died at
10 o'clock on Tuesday morning.
He was the son of Alexander and
Alice Gorman Kilroy and was born
54 years ago in Norwich Town, where
he resided up to the time of his death.
He was a member of the Sacred Heart
church and while living here he at-
tended St. Mary's church.
Mr. Kilroy was a mill operative and
for some time past had been employ-
ed by the Roanoke Lumber company
on the East Side and proved capable
and faithful. His first wife was Cath-
erine Burns and by this union there
were two children—Mrs. William Bro-
sowski and Alexander Kilroy. From his
second wife Mr. Kilroy married Cath-
erine Burns and there are two daugh-
ters by this union—Winifred and Ag-
nes Kilroy. Mr. Kilroy was a mem-
ber of the Sacred Heart church and
was a devout Catholic. His funeral
will be held on Wednesday at 10 o'clock
from the residence of his wife, Mrs.
Catherine Kilroy, 16 Roath street, and
will be followed by interment in the
Catholic cemetery. The Rev. Father
McCarthy will officiate.

FUNERAL.
Miss Grace E. Carpenter.
The funeral of Miss Grace E. Car-
penter took place from her late home,
47 Prospect street, Tuesday after-
noon at 2 o'clock with a large at-
tendance of relatives and friends. Rev.
C. H. Ricketts officiated. The bearers
were: A. E. Maine, George Rogers,
John McWilliams and Arthur Camp-
bell. Burial was in Yantic cemetery,
where Mr. Carpenter had a committal
service. There were many beau-
tiful flowers.
The deceased was born in this city
56 years ago, the daughter of Charles
H. and Orea P. Wait Carpenter and
is survived by one brother, Oscar W.
Carpenter, of this place, who is a
Baptist in religious belief and at one
time sang in the Greenville Baptist
church choir.

Goldblatt Twins Observed Birthday.
The home of Mr. and Mrs. David
Goldblatt of Central avenue was a
scene of enjoyment recently when
their twin children, Esther and Jacob,
celebrated their birthday. Music, both
piano and instrumental, was rendered,
followed by refreshments. There were
about 25 in attendance and a most en-
joyable time was spent.

Personals and Notes.
Alexander Morrison of Smith avenue
has moved to North Main street.
Mrs. Albert McNulty is convalescing
from a severe attack of the mumps.
J. Bradford Ricketts is confined to
his home on Prospect street by ill-
ness.
Miss Mollie Ball of New London
is the guest of Mrs. Frank Towne for
a few days.
Miss Grace Smith of New London
is the guest of Mrs. Frank Towne for
a few days.
James Gordon and John Reardon
have returned from a few days' visit
in New York.

Mrs. E. N. Brown of Central avenue
is spending a few days with friends
in Springfield.
Charles Prentice, a student at Yale
Sheffield, is visiting with his mother
on Central avenue.
Raymond Murray has returned to
his home in Pawtucket after visiting
a few days with Seventh street friends.

Rev. P. J. McCormick, professor at
the Catholic university in Wash-
ington, is passing a few days with
his mother on Fifth street.
James Hollingsworth, son of Mr. and
Mrs. John Hollingsworth, was con-
veyed to the Backus hospital Monday
evening in the ambulance. Mr. Hol-
lingsworth has a serious illness.

Miss Amy C. Lamb of Twelfth
street, who is employed in the office
of the American Thread company, has
returned after spending the Easter vaca-
tion with her parents, Harold E.
Warner, of Springfield, Mass.

CITY HEALTH RECOMMENDATIONS

Made by Dr. Lewis in His Annual Report—Several Sewers Needed—Scarlet Fever Visitation Was the Most Serious Item in Health of the City in Past Year.

In his annual report to the com-
mon council, which was presented at
the meeting Monday night, the city
health officer, Dr. N. B. Lewis, made
the following recommendations:
That the culvert at Comstock pond be
completed.
Turner pond acquired and culvert
constructed through it.
Garfield avenue should be accepted
as a public street.
Large sewer should be laid through
Garfield avenue and Laurel Hill ave-
nue.
Sherman street near Canada bridge
should be sewered.
The outlet of Market street should
be changed.
Short sewer should be built in
Golden street.

Health Report.
The following was the report of the
health officer:
Every year throughout the state and
nation renewed efforts are being made
for the prevention of disease, especially
in infants and young children. For the
past eleven years I have distributed
year to year to mothers of young chil-
dren a pamphlet on the care of infants
and young children. Almost all of the
deaths in infants during the summer
from the several hot diseases are due
to neglect of the mother. It is there-
fore essential to the health of the in-
fant that the mother should be in-
structed in the care of her child. The
same may be said of larger children and
adults, that some knowledge in sani-
tation and the prevention of disease is
essential to health, and that health is
essential to the happiness and pros-
perity of the community. During the
past year about the usual number of mis-
cellaneous nuisances have been re-
ported; an increased number of cases
of scarlet fever; more minor com-
municable diseases; less pneumonia;
less malaria; and fewer diseases of
children.

It has not been possible during my
term as health officer, with the small
appropriation for expenses, to
maintain an office devoted solely to
health work or to keep extensive files
of statistics. These improvements are now
being made by the majority of cities
at a cost of from \$2,500 to \$3,000 year-
ly. We have managed to obtain excel-
lent results, improved the sanitary
condition of the city, avoided severe
epidemics and have been exempt from
smallpox for eleven and a half years.
The clerical work in this department
has increased very much during the
past year and extra work has
been added by new laws, both state
and national, so that it would seem
necessary in the near future that an
office be established solely for health
work.

Communicable Diseases—Typhoid.
During September one case of ty-
phoid fever was reported in this city.
Every effort was made to trace the
origin of the disease, but without re-
sult.
Scarlet Fever.
Only two cases of scarlet fever oc-
curred in the city until September,
when five cases were reported in the
county home. The children were re-
moved to the hospital as soon as pos-
sible. During the fall and winter
months but other children were neces-
sarily exposed to the disease, and before
the epidemic was over, there were
eight cases in the county home. As soon
as possible after the outbreak of the
disease I obtained a supply of prophyl-
actic vaccine with the intention of
vaccinating the children in the coun-
ty home and checking the epidemic.
The superintendent of the county
home refused to have the vaccine used
and the children continued to have the
disease. During the fall and winter
months several cases of scarlet fever have
occurred in large families and the vac-
cine has been used with success in
every case but one. In November one
case occurred in the Hobart avenue
school, and the school was closed at
once. The superintendent of the coun-
ty home refused to have the vaccine used
and the children continued to have the
disease. During the fall and winter
months several cases of scarlet fever have
occurred in large families and the vac-
cine has been used with success in
every case but one. In November one
case occurred in the Hobart avenue
school, and the school was closed at
once. The superintendent of the coun-
ty home refused to have the vaccine used
and the children continued to have the
disease. During the fall and winter
